OBJECTIVE: I am a Software Developer at Microexcel working with a wide variety of software tools and frameworks. I graduated with degrees in Web/App Development and Business Management. I am determined to master whatever I do and always ambitious to learn new technologies. I strive to innovate, enjoy being creative, and love working on projects that require authenticity and logic.

EXPERIENCE:

Microexcel CSD   Orem, Utah

– Software Developer/Engineer   Oct 2016 to Present

- Develop custom web based software applications for various clients with unique needs.
- Build projects ranging from dynamic patient/client management systems to custom e-commerce and e-learning software solutions using the latest technologies and frameworks such as Angular, PHP, MYSQL, & Knockout.
- Implemented projects into a mobile app using NativeScript and Angular.
- Design prototypes with basic technologies; HTML5, CSS3/SASS, and JS
- Create wireframes, ads, icons, branding, and logos based off specific or abstract ideas from the client using the Adobe CC Illustrator, and Sketch.

Mike's Bug Off Pest Control   Salt Lake City, Utah

– Manager/Owner   August 2013 to Sept 2017

- Designed and create business image and marketing.
- Scheduled 150+ clients quarterly for each service.
- Prepared monthly financial reports.
- Performed development and door-to-door sales duties.
- Managed business equipment and needs.

EDUCATION:

Utah Valley University   Orem, Utah

– Bachelor Degree, Web and App Dev.   May 2015 to May 2018

- Built websites using HTML5, CSS3, JavaScript, PHP/MYSQL, and Laravel.
- Acquired design skills and is proficient with using Adobe CC and Sketch.
- Used and added payment processing systems with Stripe and Paypal API's.
- Learned the importance of the relationship between front-end design and back-end development, and how to apply both effectively.
- Gained insight of UX design while conducting user research with surveys, interviews, personas/scenarios, and testing.
- Research with concept maps, wireframes, prototypes, and final designs.

– Minor Degree, Business MGMT.   Jan 2015 to Apr 2016
